Sir:

Clean Set of Claims:

14. A packaging laminate comprising:
- a first layer;
 - a second layer bonded to the first layer having a first bond strength, the first and second layers being coextensive with one another;
 - a plurality of linear fold regions, each fold region overlying and defining a corresponding crease line of the packaging laminate, the plurality of linear fold regions having a bond strength less than the first bond strength, wherein when the laminate is folded at the crease lines, the first and second layers separate from one another.
